

# Accelerate Claims. Slash Costs. Delight Customers.

Panel Pro by Hue Touch—the AI-powered app revolutionising automotive insurance claims through fast, precise, and transparent damage assessments.

---

## Instant, Accurate Estimates in the Field

- Surveyors take photos of minor scratches, dents, or major collision damage.
  - AI, backed by data on 1.5 million+ car parts and accessories, instantly calculates repair, repainting, labour, or replacement costs.
  - Covers over 90% of cars on Indian roads manufactured from 2012 onward, ensuring high applicability across your claim portfolio.
  - Eliminates subjective over-assessments while boosting speed and consistency in estimates.
- 

## Massive Savings on Every Claim

- The average private car own-damage claim in India is ₹20,000 to ₹30,000.
  - In cases involving bodywork, paint, or bumper replacement, claims can rise to ₹50,000–₹75,000.
  - Inflated or inconsistent field assessments can add 10–20% in excess payouts, especially in high-volume portfolios.
  - For an insurer processing 10,000 motor claims a year, this can mean ₹3–₹4 crore in avoidable losses.
  - Panel Pro helps control this leakage through instant, data-driven, standardised estimation.
- 

## Speed & Precision Combined

- Explainable AI: Surveyors and claims teams receive clear breakdowns of parts, paint, and labour costs for easy validation.
  - Central claims teams can approve or modify estimates in minutes—significantly reducing claim turnaround time.
-

## Enhance Customer Experience & Trust

- Long processing timelines are a key driver of dissatisfaction in motor insurance.
  - With Panel Pro, surveyor-to-approval time drops from hours or days to minutes, enabling faster payouts and a smoother customer experience.
  - Boosts retention, renewals, and brand trust.
- 

## Combat Cost Inflation & Fraud

- Car repair and paint costs in India have increased by 12–15% YoY due to rising material and labour charges.
  - Field-level misreporting or manual estimation gaps continue to be a source of fraud and leakage.
  - Panel Pro helps reduce subjectivity, human error, and overcharging, cutting claim inflation at the source.
- 

## Enterprise Subscription—Affordable & Scalable

- Flexible, cost-effective enterprise pricing based on your claim volume.
  - Includes:
    - Access to the AI estimation engine
    - Surveyor mobile app
    - Claims analyst dashboard
  - Easy integration with your existing claims or policy management systems via secure APIs.
- 

## See It In Action—Live Demo in Minutes

We'll show you:

1. A real-time demo of the surveyor app and AI-generated cost estimation
2. Data comparisons: Traditional field survey vs Panel Pro outcomes

3. Claim volume-based savings projections tailored to your company
